Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 October 2004.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Species I (claims 1-16) in the reply filed on 10/13/04 is acknowledged. Examiner is unclear whether applicants traverse on the ground that species 2 including a stent and it is believe that no further search is required or no further search is required for both new species 1 and new subspecies 2.

If applicants traverse on the ground that species 1 and species 2 are not restrictable because species 2 including a stent and that no further search is required, then this is not found persuasive because Species I: a medical device including a stent and a protector and Species II directed to a medical device and stent and balloon and protector. Each species has a mutually exclusive technical feature. Should applicant traverse on the ground that the species are not patentably such evidence now of record distinct, applicant should submit evidence or identify showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Examiner agrees with applicants that no further search is required for new species 1 and new subspecies 2 and species 1 and subspecies 2 should be examined together. Claims 1-16 are readable on species 1, subspecies 2.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 1-53 are pending, claims 17-53 are withdrawn from consideration.

Information Disclosure Statement

3. The content of information disclosure statement (IDS) submitted on 2/27/02 has been considered. However, submitted forms 1449 have not been initialed. Examiner requests applicants to resubmit forms 1449 with correct information such as, applicant name, application no., filing date ...

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-15 of U.S. Patent No. 6,152,944. Although the conflicting claims are not identical, they are not patentably distinct from each other because they both claim the same subject matter.

6. Claims 1-16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-15 of U.S. Patent No. 6,416,529. Although the conflicting claims are not identical, they are not patentably distinct from each other because they both claim the same subject matter.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

8. Claims 1,2,3,8, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Keith et al. (5,015,231). Keith et al. disclose a medical device including a catheter, a balloon (12) and protector sleeve (50) as claimed.

9. Claims 1-3, 8-12 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Wiktor (4,649,922). Wiktor discloses a catheter, a balloon (4) and a spiral tubular protector sleeve (6 and 9), the protector having a variable inner diameter at the collar portion (9, fig. 4).

10. Claims 4-7 rejected under 35 U.S.C. 102(e) as being anticipated by Traxler et al. (6,283,743). Traxler et al. disclose a balloon (20), a protector sleeve (10) having variable inner diameter and including dimples (fig. 18) formed on the inner wall of the sleeve.

Allowable Subject Matter

11. Claims 13-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to (Jackie) Tan-Uyen T. Ho whose telephone number is 571-272-4696. The examiner can normally be reached on MULTIFLEX Mon. to Sat..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, ANHTUAN NGUYEN can be reached on 571-272-4963. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
